[Perinatal mortality in a peri-urban population in Mali (an analysis of 125 cases)]. Preterm delivery and low birth weight children are common in Mali. In a peri-urban area around Bamako (Mali), fetal and early neonatal mortality constitute a major problem. The purpose of the study was to analyse the causes of perinatal mortality, and to determine the relative importance of different risk factors such as malnutrition, malaria, HIV infection, and sub-fertility. A retrospective analysis was performed on 125 stillbirths and neonatal deaths occurring in the Sahel region of Bamako (Mali) from 1.10.1997 to 31.05.2007. Data were collected from hospital registers and health and demographic surveillance systems in the region. Early neonatal deaths in Mali are more likely to occur at the antepartum and intrapartum periods than in developed countries. The risk factors most strongly associated with stillbirth were low birth weight (OR=5.14; 95% CI: 3.6-7.34) and prematurity (OR=10.8; 95% CI: 3.7-31.1). Malaria was the second most important risk factor for perinatal mortality in this population. In women with unknown HIV status, HIV infection was strongly associated with stillbirth (OR=36.1; 95% CI: 12.2-107). Notes Management

Additional Notes: In the demo we are starting with the Duos mode that is a pair vs pair battle, then it will jump to Squad and then to the full game! The earlier stages of the game are a bit basic, then after around the 35-40 minute mark the game really picks up and develops. If you have already purchased the game and are in on the beta, then you should be able to play as long as you want to. (it seems there is no limit). If you are
