✓ It's easy to use ✓ You can set title, url, text, url by setting property in property editor ✓ Full Screen mode and Browser Mode are supported. ✓ No special program to install. Hello, I'm writing an article, that I will publish in my site. The problem is, that I need simple forum, that I can use in this article. But my english is not good, and I need to use google translator, and the forum has to be in english. This forum is something like this. It is not important for me, that forum is free, or it costs money. Maybe, there is another option to do this? Please, tell me, what forum you would like to use, and I will write my article with your forum in it. I need forum that it would be simple to use and I won't need to translate forums or make forum, that could be changed. Please, tell me, if you understand me, or maybe you can try to understand my english. Thank you very much! Good evening. I need a client with a big chat. Any type of chat is Ok. I'm looking for simple chat with the option to chat in groups. I would need to have a good translation of the text and of the groups. Some options to share images and video files. A simple chat with functions would be perfect. I have two versions of the same project, both (WITHOUT LOGO) but with a few options. I would like to convert both in one version, but there is a different color (2d version). In the logos there is a special thing that is in the background. Would you guys be able to do that for me? I'll leave you more details on what I need. Hi I am looking to hire someone to create some simple content (around 1000 words). I will pay upfront and \$5 per article. You will have to make sure all content is 100% unique. This is a very simple and easy job. No need for a design. I can provide you with all images etc. If you have any questions or concerns please feel free to message me. I need someone to make simple graphs for my project with customised options. I will share the instructions of how to make the graphs with you. I would want the graphs to be simple, however simple is a bit vague. I would want the graphs to look professional. I need you
