Terminator 3 has emerged from my memory as something I never really wanted to play. Does anyone remember that one? No, nobody remembers Terminator 3. Well, there's a reason for this. Like all the previous movies based on the Terminators, Terminator 3: The Redemption is not an action movie at all. As a matter of fact, it's not even a horror movie. Don't get me wrong - it's not even a comedy, either. It's a somber story about nuclear apocalypse and what happens to mankind when evil machines end up leading the charge. Yet, the movie is so disappointing that I'm surprised that anyone watched it through to the end. There's a reason why no one really talks about Terminator 3. Now, I've never seen the Terminator series before, so I went into the movie having an open mind. Could this be the best of the five movies? It certainly has the potential to be. As far as action is concerned, the movie does have a few really cool set pieces. We even get the female version of the Terminator, an idea that's been done before in other movies. With all these positives, there are some areas that need to be improved. The special effects are really only acceptable, especially for a film that's only two hours long. While in some spots, it really looks impressive, in others, it's just not up to par with the rest of the movies. There's also the issue of the destruction of the city. It wasn't the most well-done part of the movie, but it still looked great. The acting, however, is not good. The movie is loaded with wooden performances, most of which are from Tanya Roberts. Every single side character was played to death, which is a real problem because there wasn't enough to do. The movie also takes a ton of time to get to the main plot. The part that really hurts the movie is the script. It's a rather bad script, that's one thing I can say in its favor. It truly was terrible. Every single piece of dialogue was really bad. It was the worst script I'd ever read. The dialogue was cheesy, and the story made no sense. The characters, especially the female lead, were flat. The dialog didn't do a damn thing for the characters, and I wish someone would've put some work into that. Luckily, the character development was there, though. The actors did an excellent job in that department, particularly with Sarah
